|--|--|
| <p>With over 135 years of experience in the manufacture of Pressure Vessels, we continue to supply bespoke vessels to some of the worlds most prestigious companies. Our skilled team can undertake vessel design and manufacture from receipt of basic instructions.</p> | |
| Design | <p>Our design office will generate a CAD drawing for your approval, Insurance Company Inspection or manufacture. Drawings may be sent by post or Email (in a variety of file formats .dxf, .dwg, etc..)</p> |
| Design Codes | <p>PD5500; BS5169; EN286 (Part 1); Lloyds Class 2/2 & 3; Bureau Veritas; Det Norske Veritas; ASME V111 Code; and most other well known specifications.</p> |
| Manufacture | <p>Using the latest manufacturing techniques, materials and skills. Inter-process QA inspections ensure high quality levels are maintained. Reliable deliveries are secured by using a bespoke production control system. <i>Max Dia: 2.5 M Max Length: 7.3 M Max Weight: 8 Tons</i></p> |
| Testing | <p>Hydraulic, Radiographic, Magnetic Particle, Dye Penetrant Etc.. As Required</p> |
| Inspection | <p>3rd Party Inspection Authorities and Insurance Company Surveyors are given all facilities to examine vessels and welded fabrication during any stage of manufacture, and final hydraulic testing. Arrangements can be made for specimen weld testing, and for materials to be independently inspected.</p> |
| Finish | <p>Internal and External finishes to specific standards are common practice. <i>Galvanizing, Epoxy Resin</i>, specific colours (to BS4800 & BS381C), and other finishes at your request. DWI approved coatings</p> |
| Documentation | <p>PED Certification can be supplied for pressure test, weld tests, materials, pressure gauges and relief valves etc. upon your request.</p> |
